

Dräger X-plore® Pure Particle Filters

Hazards in industrial work processes and the necessary safety measures are growing in complexity and diversity. The new Dräger X-plore® Pure particle filters with advanced modularity and a wider range of application possibilities take this development into account.

ST-12967-2007

This filter can be used purely as a particle filter or in combination with gas filters – the user can benefit from a variable and safe individual solution in connection with Dräger X-plore® half- or full masks of the series 3300, 3500 or 5500.

The following benefits of the Dräger X-plore® Pure particle filter will make your choice easy:

Design and Material

- trapezoid and eccentric connection for an unobstructed field of vision
- can be used with Dräger X-plore® 3300/3500 half masks and Dräger X-plore® 5500 full face masks
- ideal for use with face visors or welding shields
- lint-free, flexible filter material
- high modularity allows you to expand your Dräger X-plore® gas filters to combination filters using the Dräger X-plore® Pure Filter and Adapter
- Dräger X-plore® Pure Odour P3 with an integrated charcoal-layer protects against nuisance, organic odours below the occupational exposure limits

High User Safety

- CE-certified (EN143:2000/A1:2006)
- labelling "R": certified for reuse (more than one shift)
- Marks on the filter insert for secure filter guidance (safe, fast bayonet fitting)
- not easily flammable – ideal in a welding environment
- patented internal mechanics enable an easy and quick fit test
- VOICE-program helps users to select the right filter for the application (www.drager.com/voice)
- free online-training for respiratory protection (www.draeger.com/apr-training)

Highly Efficient

- packed in pairs for improved protection of unused filters
- usable for 3 years after date of manufacturing
- reduced costs through compatibility with all Dräger X-plore® bayonet gas filters and the Dräger X-plore® Pure Adapter

Discover the benefits of Dräger X-plore® Pure particle filters for yourself.

Half mask Dräger X-plore® 3500 – with Dräger X-plore® Pure particle filter

TECHNICAL DATA

Design	The particle filter is trapezoid shaped		
Dimensions	Outer diameter:	139 x 94 mm (l x w)	
	Height (including bayonet fitting):	24 mm	
	Volume of the filter:	approx. 115 ml	
Filter medium	SYNSAFE®		
Approvals	Dräger X-plore® Pure filters comply with the safety requirements for the EU-guideline 89/686 and are certified according to EN143:2000/A1:2006. The products are CE-certified.		

ORDER AND APPLICATION INFORMATION

Filter class	Notes for application	Package size	Weight	Order no.
P2 R*	Not for radioactive materials and airborne biological work materials of hazard group 3 and enzymes	20 units	20g	67 38 353
P3 R*		20 units	20g	67 38 354
Odour P3 R*	Additionally protects against nuisance odours below the occupational exposure limit	20 units	30g	67 38 391
Pure Adapter	Enables the combination of Dräger X-plore® bayonet gas filter and Dräger X-plore® Pure particle filter as a combination filter	10 units	18g	67 38 356

* labelling "R": certified for reuse (more than one shift)
